

Next Steps for Evaluating and Selecting Water Management Strategies

Decision-Making Process for Selecting Water Management Strategies

Example Water Conservation and Efficiency Strategies

Agricultural Portfolio of Water Efficiency Strategies

Water Audits and Nozzle Retrofits

Irrigation Scheduling

Soil Management

Crop Variety, Crop Type, and Crop Conversions

Irrigation Equipment Changes

Municipal Portfolio of Water Conservation and Efficiency Strategies

Conservation Pricing Structures

Public Education of Water Conservation

Toilet Rebate Program

Residential Water Audits

Landscape Irrigation Program and Codes

Water Efficiency Standards for New Construction

Leak Detection and Water Loss Control Program

Reclaimed Water Programs

Car Wash Recycling Ordinances

Time-of-Day Watering Limits

Water Waste Ordinance

Existing Supply-Side Strategies in the Broad Basin

- Interconnections between systems, including for emergency
- Raise dams/increase existing reservoir storage
- Maintenance and improvement of existing reservoir infrastructure
- Reservoir optimization (adjusting how reservoirs are operated)
- Conjunctive use
