**Re: Congaree River Project  
Updated Unexploded Ordnance (UXO) Plans  
Columbia, South Carolina**

Dear Mr. Cassidy:

In support of the Dominion Energy South Carolina (DESC) Congaree River Project, attached are the following updated Unexploded Ordnance (UXO) Plans:

- Final Work Plan for Munitions Response;
- Final Explosives Safety Submission;
- Final Diving Operations Plan; and
- Diving Safe Practices Manual.

These plans have been updated and revised by Titan Associates Group, Inc. (Titan) to reflect the scope of work set forth in the Stakeholder-Developed Modified Removal Action (MRA).

Please note that in Section 13. Contingencies of the Final Explosives Safety Submission, Titan incorporates recent guidance provided by SCDHEC relating to the response chain in the event that Materials of Explosive Concern (MEC) are encountered.

The Department's written approval/concurrence of these UXO Plans is required by the USACE and is an important component of the permit application submittal to the USACE.

If you have any questions or comments regarding this submittal, please contact Paul Biery of DESC at 803-217-5016.

Sincerely,

A handwritten signature in blue ink that reads "T. N. Effinger".

Thomas N. Effinger, P.E.  
Director, Environmental Services
