RE: Request for Certification of Completion – Area 2
SCE&G Fleet Maintenance Site (Congaree River)
Columbia, South Carolina

Dear Mr. Effinger,

The State Voluntary Cleanup Program has reviewed the Request for Certification of Completion – Area 2 received by the Department on October 4, 2023. The Department conducted a final inspection of the Area 2 removal on October 5, 2023. To the extent practical, all residual TLM and sediment from the Area 2 removal area has been removed. Additionally, the bedrock bottom has been pressure washed to remove to the extent practicable any remaining coal tar staining or sediment along the bedrock bottom.

This letter should serve as certification and concurrence that the removal work included in the Modified Removal Action Work Plan for Area 2 has been completed. Deconstruction of the Area 2 Cofferdam can commence.

If you have any questions or comments please contact me at (803) 898-0910 or cassidga@dhec.sc.gov.

Sincerely,

Greg Cassidy
State Voluntary Cleanup Program
