Re: Department Decision  
Westinghouse Electric Company LLC/Columbia Fuel Fabrication Facility  
NPDES Permit # SC0001848  
Richland County

Dear Diana Joyner:

Enclosed is the National Pollutant Discharge Elimination system (NPDES) Permit for the above referenced facility. The permit is issued with the following changes to the draft permit that was public noticed on May 5, 2023:

1. Nitrate Nitrogen monitoring has been added to Outfall 001.
2. The groundwater monitoring requirement for Volatile Organic Compounds was removed because these compounds are not associated with the wastewater treatment system and are better monitored and regulated by the Department's Bureau of Land and Waste Management.
3. A groundwater monitoring requirement for tributyl phosphate was added based on information received from Westinghouse.

In order that you understand your responsibilities included in the provisions of this permit, particular attention should be given to the following sections:

1. PART II.E: This section contains responsibilities for the proper operation and maintenance of your facility.
2. PART II.L.3: This section describes the specific requirements for the permit to be transferred to another party.
3. PART II.L.4: This section contains your responsibilities for reporting monitoring results. Preprinted Discharge Monitoring Report (DMR) forms will be provided at a later date by DHEC for reporting monitoring results.
4. PART III: This section contains all listings of effluent characteristics, discharge limitations, and groundwater, soil and sludge monitoring.
5. PART V: This section contains all the special requirements relative to your permit. Such items in this section include the certified operator required to operate your wastewater treatment plant, the day of the week on which monitoring shall occur, sludge disposal requirements, and whole effluent toxicity requirements.

Please note the effective date on the permit and see the enclosed South Carolina Board of Health and Environmental Control Guide to Board Review.

If you have any questions about the technical aspects of this permit, please contact Byron M Amick at 803-898-4236. Information pertaining to adjudicatory matters may be obtained by contacting the Legal Office, SCDHEC, 2600 Bull Street, Columbia, SC 29201, or by calling them at (803) 898-3350.

Sincerely,

Crystal Rippe, Manager  
Industrial Wastewater Permitting Section
